NOTE FOR THE FILE

10-77 R-5240/1

STAT

Discussed with [redacted] of OGC the limited indices maintained by OLC, and that it would be an "unreasonable search" for us to check all our 1971 files just in case we might come up with something. She agreed I should not do any such search. If she gets a clue as to any Congressional involvement in this subject, she will get in touch with me and I will proceed searching in line with her advice.
